## Christian Education Partners Scholarship

We share your passion for Christian education, and we want to reward you with a four-year scholarship.

As an institution of higher learning that is firmly rooted in Christian tradition, Northwest Nazarene University understands the value of recognizing and partnering with its fellow Christian schools at the high school level.

The mission of Northwest Nazarene University is the transformation of the whole person. Centered in Jesus Christ the NNU education instills habits of heart, soul, mind and strength to enable each student to become God's creative and redemptive agent in the world.

To that end, NNU recognizes that such a transformative experience is not confined to the college career, but rather begins long before and continues for the rest of a student's life. Because we understand the intrinsic value of the preparation that comes from a Christian high school education, NNU has partnered with a number of Christian high schools in the Northwest to offer their graduates a scholarship at NNU for every year that the student attended his or her high school full time. This scholarship is meant to strengthen our bond with Christian high schools and to serve as recognition of families' sacrifice in sending their children to Christian schools.

The scholarship is established at \$5,000\* per year for every year that the student attended a partner school full time between grades nine and 12. The student must also graduate from his or her school with a cumulative 3.0 GPA and be in good academic standing at the time of graduation.

\*Students choosing not to live on campus are eligible for \$2500 per year.
